WARRANT FOR ANNUAL TOWN MEETING, 1906.

STATE OF NEW HAMPSHIRE.

[L s.] *To the inhabitants of the town of Wakefield in the county of Carroll in said state, qualified to vote in town affairs:*

You are hereby notified to meet at the town hall in said Wakefield on Tuesday, the thirteenth day of March next, at ten of the clock in the forenoon, to act upon the following subjects :

1. To choose all necessary town officers for the year ensuing.

2. To raise such sums of money as may be necessary to defray town charges for the ensuing year, and make appropriations for the same.

3. To see if the town will vote to instruct the selectmen to deposit the money now intrusted in the town as trust funds for care of cemeteries in savings banks in trust for such purposes.

4. To see what sum of money the town will vote to raise and appropriate for the repairs of highways and bridges.

5. To see what sum of money the town will vote to raise for the support of schools in addition to that required by law.

6. To see what sum of money the town will vote to raise for the repairs of school houses.

7. To see if the town will vote that it is inexpedient to establish a town library.

8. To see if the town will vote to appropriate from the money now in the treasury a sum not to exceed one thousand dollars for the purpose of furnishing, heating, and improvements of grounds of the Sanbornville school house.

9. To see if the town will vote to provide a school house at East Wakefield, by moving the school building now at "Dow's," or by building a new building and raise or appropriate money therefor.

10. To see if the town will vote to receive from Jane Cook one hundred and fifty dollars in trust, to pay three per cent. interest on the same and invest said interest under the supervision of the selectmen in keeping in repair the John Cook cemetery located in said town.

Given under our hands and seal this twenty-fourth day of February, in the year of our Lord nineteen hundred and six.

In concluding our report we wish to make a few explanations relative to our financial condition, and also to call direct attention to certain acts which have or have not been performed. On taking our oaths of office we assumed great responsibilities, and the first matter to require attention was to raise by taxation the enormous sum of \$16,593 41 voted by our people on election day. An inventory of the town revealed the valuation to be \$669,469, an increase of \$22,384, and the tax rate was made at \$2 53, which has been commented upon to considerable extent, but for which high rate we were in no wise responsible. Fortunately, however, we have been enabled to maintain an even tenor of expenses, so that the balance in favor of the town is \$7,298 63, an increase of \$1.565 80, since we assumed our duties.

A word of explanation may be necessary at this time relative to our highways. The town voted and appropriated money for State aid, but for divers reasons no expenditure has been made in this line, the primary and principal reason being, as stated by the State engineer, from not being able to secure enough contractors who were reliable. An Assistant State engineer has been here and examined our highways, made his own selection as to location where best to begin operations, stating that in beginning the work a piece of road should be selected whereby the contractor could make as good a showing as possible for the amount of money expended. Here the matter rests, the town having the sum of \$970 50 in the hands of its treasurer for this purpose, and also the sum of \$388 00 to be received from the state when the work is completed, and we hope that operations will be begun this year as soon as the season will permit.

Respectfully submitted,

FRED B. SHOREY,	} Selectmen
WILLIAM H. WILLEY,	
HANSON P. GILMAN,	
	of
	Wakefield

WAKEFIELD, N. H., Feb. 17, 1906.

BUILDING COMMITTEE'S REPORT

On Sanbornville School House

We procured about three-fourths of an acre of land at the corner of Beach and Water streets and erected thereon a building with two school rooms, each of a capacity to accommodate forty scholars.

The cost of the same was as follows :

For the lot	\$ 190 00
For grading and supervision	406 63
For building complete, without heating and furnishing	2,750 00
For architect	100 00
Balance of appropriation	53 37
	<hr/>
	\$3,500 00

Respectfully submitted,

F J LEAVITT,

W H WILLEY,

A J FARNHAM,

Building Committee

REPORT OF BOARD OF HEALTH

From January 1, 1905, to January 1, 1906

Number of births for year	43
Number of deaths	47
Contageous diseases reported—	
Measles	16 cases
Scarlet fever	7 cases
Typhoid fever	2 cases
with recovery in both cases.	

Fourteen samples of well water have been analyzed at the State laboratory by request of individuals owning the wells; four samples were found impure, five much polluted, and two unfit for domestic purposes.

Respectfully submitted,

J A STEVENS, M D

School Report.

FIRST ANNUAL REPORT

Of the Superintendent of Schools to the Wakefield School Board

GENTLEMEN: I herewith transmit through you to the citizens of Wakefield my first annual report as superintendent of schools.

Although my work in this supervisory district did not begin until the first of August, this report in some features will cover the entire school year.

You are to be congratulated that it has been possible to lengthen the school year to thirty-three weeks. This, if I mistake not, is an advance of three weeks over last year. I urgently recommend that there be no retrograde movement this coming year.

You will note by referring to the statistical table on another page that the attendance for the year has not been all that is desired. Most of the cases of non-attendance were doubtless legitimate. Two threatened scarlet fever epidemics were in part a cause of the poor showing in Union. But there have been cases of non-attendance constantly arising which need not have occurred had the parents shown a greater interest. This failure to insist on the attendance of the child has been due to various causes. It is absolutely necessary, both for the progress of our schools and the development of the moral character of the child, that there be hearty co-operation on the part of parents and teachers to secure regular at-

tendance. And I would call attention of parents to the fact that the attendance should not only be regular but punctual. A moment's reflection will convince any fair minded person that any teacher is crippled in her work if, after the opening of school, eight or ten children straggle in from five to thirty minutes late.

There have been improvements made in several school buildings. The Piper School has been painted inside and out. The building at South Wakefield has received needed attention, among other improvements new desks and chairs have been furnished. The building at Providence Lake has been painted and otherwise improved. At Union the special committee has constructed the wall in the rear of the school building and at the same time improved the approach. Much still needs to be done to the grounds to get them into proper shape. I am in hopes that the citizens of the village will take this matter in hand in the spring. The heating apparatus which has proved so unsatisfactory has been altered but still fails to do its work successfully. I advise the installing of a coal furnace with sufficient capacity to properly heat the building. The cellar of this building has been cemented.

There are still several buildings which need attention. I recommend that the grammar building at Sanbornville be put in a condition more suitable for school purposes. I would suggest that \$300 be appropriated for repairs.

I would call attention to the urgent need of school room decoration and school ground adornment. Something has been done; much more needs to be done. If we are to bring out the very best in our boys and girls, we must surround them with things that are inspiring and uplifting. No school can successfully do its work in an un-

tidy, cheerless room. Wholesome conditions are as essential in the school as in the home.

I recommend that sufficient money be appropriated to complete the new building at Sanbornville, and that this work be accomplished as early as possible.

During the year the children from East Wakefield have been transported to and from Wakefield Corner by train. This has not proved a satisfactory arrangement. The school at the Corner has been so large that no teacher could do justice to the work, but I would commend the work that Miss Pike has done under the conditions. Furthermore a train is no place for small children unattended by parents, nor is it advisable to transport older children in this manner without some restraint. It is my advice that some means be provided at East Wakefield for a school. The Dow building, to which these fifteen or more children would naturally go, does not seem to be fortunately located.

I would urge upon parents and citizens in general the desirability of more intimate acquaintance with the school and what it is trying to do. Every earnest teacher desires the kindly criticism of parents. Both superintendent and teachers would urge parents to visit the schools, not merely on "show" days but when the regular work is being done. I take it that the parent has something more to do than merely send his child to school. Unless he takes a personal and active interest in the school it cannot do its complete work. One great fault with our school system is that the parents are not in close enough touch with it.

The relation between the superintendent and teachers has been pleasant. A new superintendent and especially a pioneer one must needs find many things that he would

like to correct. I am glad to say that I have found many things to commend. On the whole the teachers have the correct spirit for work and have taken kindly to suggestions. There must of course be hearty cooperation between superintendent and teachers. Although the work accomplished has not been all that could be desired, there is no reason for discouragement. I recommend that sufficient inducement, if possible, be given to a good teacher to keep her. The constant changing of teachers is a wrong policy.

We need to greatly strengthen the work of English in our schools. A liberal supply of supplementary readers is needed. These could be obtained at a small expense. Whereas it is our business to teach the mechanics of reading, that is by no means the whole of our work. If we do not inculcate the habit of reading good books, and read them intelligently I take it we are not teaching reading. I purpose during this next year to bring the school children into closer touch with the libraries of the town.

Something has been done during the year with music, but the work has not been satisfactory. There should be a special teacher into whose hands this work should be put.

I desire to thank the citizens, teachers, and school board for their assistance and cooperation.

Respectfully submitted,

CHANNING T. SANBORN,

Superintendent of Schools.
